Annual Height and Weight Screening Notice and Exemption Request

Dear Parent/Guardian,

Pennsylvania law requires schools to provide height and weight measurements for school-age students as part of the school health services program. These measurements are conducted by the school nurse and are collected in a manner that protects student confidentiality.

A parent or guardian may request that their child be exempt from the school's height and weight screening. To request an exemption, please complete and return the form below to the School Nurse. A medical explanation or healthcare provider's documentation is not required.
